

ANDREW VINSTON D SOUZA

Aspiring SOC Analyst (L1) | Threat Detection & Incident Response

Mangaluru, Karnataka, India | +91 97316 48218 | andyydz57@gmail.com

[LinkedIn](#) | [GitHub](#) | [TryHackMe](#)

SUMMARY

Final-year BCA student who taught myself SOC and Blue Team fundamentals largely through TryHackMe — 94 rooms in, ranked Top 6% globally. I document what I learn as I go, keeping a public writeup repo instead of just collecting certificates. Currently working through the Google Cybersecurity Professional Certificate and looking for my first SOC Analyst (L1) role, ideally in Hyderabad, with Cloud Security as where I want to head next.

EDUCATION

Bachelor of Computer Applications (BCA)

St. Aloysius University, Mangaluru | Expected April 2027 | CGPA: 7.16/10 (through Semester 4)

CERTIFICATIONS

- Foundations of Cybersecurity — Google Cybersecurity Professional Certificate (Coursera), scored 97.42% — June 2026
- Cyber Security 101 Learning Path — TryHackMe (45h 23m) — July 2026
- Pre Security Learning Path — TryHackMe (19h 10m) — May 2026
- SOC Level 1 Path — TryHackMe (Completed)

TRYHACKME ACHIEVEMENTS

- Rank: Top 6% globally | [0x8][HACKER] title | Profile: tryhackme.com/p/andyydz57
- 94 rooms completed | 17 badges | 34-day streak
- Key rooms: Nmap, Wireshark, TCPDump, Hydra, John the Ripper, Snort (IDS Fundamentals), Firewall Fundamentals, Hashing Basics, SIEM Introduction, Digital Forensics Fundamentals, OWASP Top 10, Web Application Basics

TECHNICAL SKILLS

SIEM • Log Analysis • Wireshark • Snort (IDS) • Nmap • Metasploit • CyberChef • Linux • Networking Fundamentals • Digital Forensics • Incident Response Basics • Python (basics)

PROJECTS

TryHackMe-Writeups (GitHub) — github.com/andyydz/TryHackMe-Writeups

I write up every TryHackMe room I complete — what I found, what I tried, and how it maps to actual SOC work — organized by topic (SOC, networking, Linux, SIEM, digital forensics, incident response) so it reads as a portfolio, not just a certificate list.

EXTRACURRICULAR

- Volunteer, CODESPRINT Hackathon — Technical coordination, network troubleshooting, GitHub management
